

JOSUÉ RIVERA

Software Developer Technician | Systems Engineering Student at Fidélitas.

+506 86976985 @ psjosue1@gmail.com linkedin.com/in/josuerivera03/ josuergweb.web.app Cartago, Costa Rica

SUMMARY

Software Development Technician and Systems Engineering student with hands-on experience building and maintaining real-world web projects. Strong background in web development and production environments developed while working full-time. Currently seeking a junior or trainee software development role.

PROJECTS AND WORKS

Web Traffic & Monetization Platform | Jul 2021 – Dec 2023

- Developed and deployed a high-performance static website focused on sports and Formula 1 content, delivering news, media, and real-time event updates.
- Successfully monetized high-volume traffic through the integration of global ad networks (Monetag, Adsterra, The Moneytizer).
- Implemented SEO strategies and performance optimization to maximize organic reach and ensure 24/7 availability for a global audience.
- Managed deployment and hosting environments, maintaining uptime and efficient resource usage.

Commercial Showcase Nodos Tecnología | Feb 2023 – Feb 2023

- Designed and developed a static commercial website to showcase computer equipment and security systems.
- Built an intuitive UI to organize and present a diverse inventory of hardware and technology solutions.
- Led the full development lifecycle, from client requirements to deployment and hosting.
- Optimized performance, responsiveness, and SEO to ensure fast load times across devices.
